What is Professional Indemnity Insurance?

Professional Indemnity Insurance protects you and your clients financially in the event of negligent acts, errors or omissions being made by your practice. It is designed to meet the costs of defending claims as well as any resultant damages, excluding FSA fines.

Why you should get a Professional Indemnity (PI) insurance quotation from PYV and how to apply.

Our **new** and **improved** facilities mean we are now even better placed to provide wide ranging cover and significant premium savings for clients who meet key insurer criteria. **We are pleased to advise we now have access to more active underwriters than ever before.**

If you have approached us in the past and we were unable to help you then, do not let that stop you applying for a quotation now. PYV have recently negotiated **improved capacity** and **lower premiums** with various insurers.

PI for IFAs

To complement our existing wide range of highly competitive options we have negotiated new, exclusive facilities to provide PI cover and additional capacity specifically for IFAs.

So, if you are not already a client of PYV Limited, please forward a copy of the proposal form you are completing for your existing insures or alternatively, return the completed version of our **new, shorter and easier to complete 2007 Proposal Form** to:
